DETAILED ACTION

Claim Rejections - 35 USC § 102

1. Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Cengel et al. (US 4,086,251) for the reasons set forth in item 3 of the Office action mailed 3/3/2006.

Applicants' arguments filed 7/13/2006 have been fully considered but they are not persuasive. Applicants argue that the reference polybutenes would not have the required terminal vinylidene content. However, they have ignored teachings of the reference which indicate otherwise. In the paragraph bridging col. 1-2, the reference discloses that the viscous polybutenes disclosed are 80-100% monoolefinic, with the unsaturation being primarily terminal or near terminal. On this basis alone, applicants' argument regarding vinylidene content is not convincing. Regarding functionality, the degree of functionality of the reference reaction product must be ≥ 1 , because if there is no reaction, then such polymer is not an "ene reaction product." Accordingly, applicants' argument that the functionality would be far lower than 1 is not accepted.

2. Claims 12 and 13 are allowed.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
